

KEN AARON DE MARTIN

City of San Pedro, Laguna 4023, Philippines | aaron.11demartin@gmail.com | +63 998 545 1812 | [LinkedIn](#)

PROFILE

Detail-oriented Information Technology student with strong foundation in both network infrastructure and software development. Certified in CCNA and CompTIA Tech+, with hands-on experience in RHEL, TCP/IP, and end-to-end application logic. Proficient in Python, C++, C#, JavaScript to implement network-level security and maintain real-time backend synchronization. Seeking to leverage a diverse technical background in a Junior Network Administrator or Junior Software Developer role to build secure, scalable IT solutions.

EDUCATION

Mapúa Malayan Colleges Laguna Sep 2022 to Present
BS Information Technology, Cabuyao, Laguna

Dean's Lister Awards 2022 - Present

Far Eastern University Alabang Aug 2020 to Jul 2022
STEM Information Technology, Alabang, Muntinlupa City

Graduated with Honors

PROJECT EXPERIENCE

Clock In Jul 2025 to Present

A proximity aware authentication using bluetooth low energy beacons for teaching employees.

- Implemented a network-level security by restricting application access to specific WiFi SSIDs.
- Developed an device-to-account binding authentication for a BYOD policy.
- Implemented a real-time in app notifications from the admin, and a feedback from the users.
- **Profile Management** , such as name, email, passwords, and etc..

Rubik's Cube Cipher Sep 2025 to Nov 2025

A 256-Bit key multi-block permutation cipher using rubik's cube state space.

- Focused on ciphering and deciphering logic.

Oasis Website (Twitter Clone) Aug 2024 to Sep 2024

A Twitter-like social media platform called Oasis.

- Developed the authentication flow for login and sign up.
- Managed API-based communication and real-time data flow between clients and servers.
- Designed the login and sign up page, and placeholders for the posts.

SKILLS

Networking & Infrastructure : CCNA, RHEL (Red Hat Enterprise Linux), Linux Administration (CLI), TCP/IP, WiFi Restriction, Routing & Switching

Security & Systems : Multi-Factor Authentication (MFA), Data Encryption & Decryption, JWT Authentication

Technical : Python, C++, C#, PHP, Node.js, ASP.NET, Kotlin, JavaScript

Web & Databases : MySQL/SQL, Oracle, RESTful APIs, HTML/CSS, Jetpack Compose

Other : Collaborative and Team-Oriented, Adaptable, Detail-Focused, Strategic and Organized, Responsible and Reliable

CERTIFICATIONS

CompTIA Tech+

Google Cloud Skill Boost

CCNA
