SUMMARY

A results-driven BS Information Technology student specialized in Cyber Security with hands-on experience in full-stack web development. CompTIA Tech+ certified with a strong foundation in PHP, JavaScript, SQL, and Python. Ready to contribute to collaborative tech teams and grow as a well-rounded professional.

EDUCATION

MAPÚA MALAYAN COLLEGES LAGUNA

BS Information Technology, Major in Cyber Security

Dean's Lister, 2022–2024

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Operating Systems, Database Systems, Web & Mobile Development

Cabuyao, Laguna
Sep 2022 to Present

WORK EXPERIENCE

CITY GOVERNMENT OF BIÑAN

Web Developer Intern (*Full-Stack Development*)

Biñan, Laguna
April 2026 – Present

- Developing and maintaining internal web systems for the City Education Office, including the CEDO Financial Assistance Program and the Biñan Access Card (more details under Projects)
- Designed database schemas and generated large-scale seed data for student and school records

PROJECTS

CEDO FINANCIAL ASSISTANCE PROGRAM

CodeIgniter 4 / MySQL / Bootstrap 5 | 2026

- Voucher management system for senior high school students, built for the City Education Office on PHP 8.2+
- Implemented role-based access, bulk Excel import/export, audit logging, Argon2id password hashing, and an asynchronous background worker that batch-generates up to 50,000 PDF vouchers.

BIÑAN ACCESS CARD

CodeIgniter 4 / MySQL / JavaScript | 2026

- ID and access-card management system for the City Government of Biñan, covering card issuance and record management
- Implemented an asynchronous background worker for batch import/export of data.

CLOCK IN – CAPSTONE PROJECT

Kotlin / Jetpack Compose | 2025-2026

- Proximity-aware teacher attendance authentication app using BLE beacons.
- Enforced device-to-account binding for BYOD, MLV, and real-time in-ap notifications.

CERTIFICATIONS & BADGES

- CompTIA Tech+ Certification
- Full Stack Web Development – Amazon
- CCNA
- 10 Google Cloud skill badges, incl. Networking & Security, Infrastructure, and Data/ML & AI in Google Cloud

TECHNICAL SKILLS

Languages: PHP, JavaScript, C#, C++, Python, Kotlin

Frameworks: CodeIgniter 4, Bootstrap, Astro, Jetpack Compose, ASP.NET, Node.js

Databases: MySQL, SQL Server, Supabase, Oracle

Networking & Security: MFA/MLV, TCP/IP, RHEL

Tools: Git, Microsoft Office, Android, REST APIs
